The headrest adjusts automatically, so you can read and watch TV, even in a reclining position.

The Plus™ system adjusts the lower back support simultaneously with the headrest. Upright or reclined, you're always perfectly supported.

Lower the headrest to the sleep position with one simple movement.

Adjust the Stressless® Glide wheels to the setting of your desire. You can automatically shift to any seating position simply by using your body weight.

Comfort Zones™ give you a better seating comfort, as the indentations let you sink deeper into the seat and back of the recliner.

Your Stressless base rotates a full 360°. Choose between different base options and finishes, including the Signature Base featuring BalanceAdapt technology.
